Video game

Cutie is a 4-song EP that serves as the bright, playful contrast to its sister album, *Quasimodo*. A love letter to video games, Cutie is a feel-good, high-energy project designed for alternative kids who find joy in gaming culture. Blending video game samples with hip-hop, Jersey club, and melodic influences, the EP creates an immersive, dreamy escape from reality. Beneath its fun and boppy sound, Cutie also explores fears and insecurities—wrapped in vibrant melodies and lighthearted production. It's about using playfulness as a distraction, finding comfort in fantasy, and embracing the sweetness of not taking life too seriously. Drenched in pink aesthetics, Cutie embodies joy, softness, and the beauty of feeling cute, even in a chaotic world

PUZZLE

Quasimodo is the intense, cinematic unfiltered contrast to its sister project, Cutie. While **Cutie** escapes into playful fantasy, Quasimodo confronts the painful realities. Fusing alt-rock with grungy distortion, powerful drums, and electric guitars, this 4-song EP is both melodic and aggressive.

Named after the ugly misunderstood figure from The Hunchback of Notre Dame, Quasimodo embodies the experience of feeling outcast, feared, and unseen. Like its namesake, the album lives in the shadows, exploring themes of self-doubt, alienation, and internal struggle. It's vulnerable, loud, and unafraid to embrace the ugly truths of existence.

Visually, Quasimodo is represented by the color green, which in modern RGB color theory the opposite of (Cutie's) pink

INTERACTIVE GAMES FOR FANS

A great challenge awaits—complete the puzzle in under 10 minutes and claim a \$30 discount on Cutie/Quasimodo merch. The clock is ticking... will you rise to the challenge?

WHY DUCKS?

The ducks featured throughout the project serve not only as a distinctive branding element but also as a bridge between the two worlds. They nod to the story of The Ugly Duckling, a classic tale about an outcast who is ridiculed for being different, only to later realize they were beautiful. This theme mirrors the projects' feelings.

The EPs, when placed by each other creates the "bigger picture"
